To Whom It May Concern,

I am pleased to recommend **Sanjana Pisal** for full-time employment within the State of Illinois. Sanjana has served as a Graduate Public Service Intern with the Illinois Department of Public Health (IDPH) starting June 2, 2025. In the short time she was with us she has demonstrated outstanding technical skills and professionalism.

During her tenure, Sanjana made significant contributions to the **development and enhancement of Power BI dashboards** for our department. She worked extensively with large health datasets to **extract, clean, and validate data** for reporting accuracy. Sanjana designed **interactive dashboards and visualizations** that provided clear insights into program metrics and trends, helping teams and leadership make data-driven decisions. She applied **advanced Power BI capabilities, including DAX measures, drill-throughs, and dynamic filtering**, which improved reporting efficiency and user experience across the department. My only regret is that she was not able to complete the work due to work requirements lending from her visa status.

Sanjana's strong analytical skills, attention to detail, and collaborative approach have made her a valuable asset to our team. I confidently recommend her for any full-time role within the State of Illinois that requires data analysis, visualization, and dashboard development.

Sincerely,

John P. Kniery
